- 3.1 Promote a culture of inclusion at all levels of the organisation regardless of gender, marital or family status, sexual orientation, gender identity, age, disability, ethnicity, religious beliefs, or cultural and socio-economic backgrounds.

- 3.2 Adopt strategies to attract and retain people from diverse backgrounds, including in key leadership positions, such as independent directors and the Executive Leadership Team (ELT).
- 3.3 Ensure objectivity measures are in place for the performance management process, with a particular focus on equity in remuneration between male and female employees.
- 3.4 Have diversity indicators established as part of the Key Performance Indicators of the Managing Director and ELT members.
- 3.5 Train all managers in managing diversity, inclusion and Respect@Work.
- 3.6 Monitor and report performance relative to objective measures including reporting any material breaches to the ELT or where required the Board.

4. Strategies to Achieve Objectives

4.1 Recruitment (Internal and external)

4.1.1 Advertising and short-listing

ClearView will consider all internal applicants and attract a more diverse range of applicants by:

- a) Advertising all positions internally and encouraging existing employees to refer colleagues;
- b) Encouraging all people of diverse backgrounds to apply when wording and advertising positions;
- c) Placing advertisements in appropriate publications to make them attractive and visible to a diverse range of applicants;
- d) Seeking input from other sources and require search consultants to provide a list of existing and emerging women directors and female senior executives as part of any recruitment process for director and senior executive positions;
- e) Requesting that search consultants include at least one woman in the candidates recommended to be short-listed who meets the criteria for the role for consideration for a position or an explanation as to why they believe there are no women within the market who have met these criteria; and
- f) Measuring and reporting on recruitment activity, broken down by gender (and, where possible, other diversity indicators).

4.1.2 Selection

ClearView seeks to reward excellence and promotes its employees on the basis of their performance. All Managers will be trained in managing diversity and inclusion to ensure that employees are treated fairly and evaluated objectively.

When a suitably diverse pool of quality applicants has been obtained, candidates will be short-listed and selected based on merit.

Applicants who meet the role related criteria of the position will not be ranked numerically but will be placed in a pool of competitive candidates from which the final selection(s) will be made. The final selection will take into account the business needs identified above and the mix of appointees that will best meet the work-related criteria of a position.

In this way, the diverse backgrounds and experiences of each candidate will be objectively considered and ensure we guard against any conscious or unconscious biases that might discriminate against certain candidates.

4.2 Training

ClearView will:

- a) Train the ELT and managers in managing diversity and inclusion to raise awareness about issues surrounding diversity and inclusion and to ensure that employees are treated fairly and evaluated objectively in accordance with this policy;
- b) Train all employees to raise their awareness about issues surrounding diversity and inclusion to ensure that employees are aware of this policy and the consequences of not applying it appropriately;
- c) Include diversity and inclusion training in induction processes for new staff;
- d) Provide annual refresher diversity and inclusion training for all employees;
- e) Train all staff in the Positive Duty requirements of the Sex Discrimination Act 1984 (Cth) Respect@Work;
- f) Emphasise that to maintain an inclusive workplace and culture, discrimination, harassment, vilification, and victimisation cannot and will not be tolerated.

4.3.1 Collect, analyse and communicate all relevant data on:

- a) Proportion of women in each ClearView business unit at each level of employment.
- b) Pay levels and attrition rates of male and female employees in comparable positions.
