ClearView WealthSolutions Superannuation and Retirement Income

Investment Booklet as at 10 May 2024

This Investment Booklet for ClearView WealthSolutions Superannuation and Retirement Income (WealthSolutions) has been issued by Equity Trustees Superannuation Limited ABN 50 055 641 757 AFSL 229757 RSE Licence L0001458 (Trustee, we, us) as trustee of the ClearView Retirement Plan (ABN 45 828 721 007, RSE R1001624) ('the Plan'). WealthSolutions is offered through the Plan.

The information in this document forms part of the Product Disclosure Statement (PDS) dated 10 May 2024. This Investment Booklet should be read in conjunction with the PDS, Additional Information Booklet (AIB), target market determination, and the relevant disclosure documents (if applicable) for the Accessible financial products (also called investment options in this document) available through WealthSolutions. These documents are available free of charge from InvestorHUB, by contacting your financial adviser or by calling the Administrator on 1300 854 994.

The information contained in this Investment Booklet is general information only and doesn't take into account your personal objectives, financial situation, needs or circumstances. Before acting on this information, you should consider its appropriateness, having regard to your personal objectives, financial situation, needs and circumstances.

Before making a decision about any investment option shown in this document (including about whether to acquire or continue to hold WealthSolutions or an investment available in WealthSolutions), you should consider (as applicable):

- the WealthSolutions PDS;
- the WealthSolutions AIB;
- the WealthSolutions Target Market Determination; and
- this document.

These documents are available free of charge from InvestorHUB, by contacting your financial adviser or by calling the Administrator on 1300 854 994.

You should also consider the PDS (or other disclosure document) and target market determination (if applicable) for any investment options before making any investment decision. Upon request, your financial adviser must give you (free of charge) a copy of the documentation.

The fees and costs disclosed in this Investment Booklet are provided by external sources, including investment research providers, or directly by the investment managers. Neither the Trustee nor the Administrator verifies, guarantees, or takes responsibility for the fees and costs disclosed in this Investment Booklet. Other fees and costs may apply within an investment option or financial product. You should not rely solely on this Investment Booklet when making an investment decision. The method of calculation and disclosure of the fees and costs is not uniform and does vary between Accessible financial products. This should be considered when comparing financial products.

Generally, you can only invest in WealthSolutions if you are advised by a financial adviser (adviser) so you can receive financial advice for each investment you are considering.

Should you no longer have an authorised adviser, there are limitations you may need to consider. For instance, you might not be able to remain invested in your chosen Accessible financial products, including managed portfolios and/or have limited access to certain investments. Refer to Section 10 of the AIB for more information.

All dollar amounts are in Australian dollars unless otherwise indicated. All fees include GST and, where eligible, are net of any Reduced Input Tax Credits (RITCs), unless otherwise specified. Information in this document is subject to change from time to time. For the most up to date version of this document refer to clearviewwealthsolutions.com.au. This Investment Booklet is generally updated on a monthly basis. For the latest Accessible financial products available via WealthSolutions visit the InvestorHUB.

Other fees and costs apply. To understand all the fees payable when you select a particular investment option, you must refer to the WealthSolutions PDS and AIB, and the product disclosure statement (or other disclosure document) for the Accessible financial product you are considering investing in.

Any statement made by a third party or based on a statement made by a third party in this Investment Booklet has been included in the form and context in which it appears with the consent of the third party, which has not been withdrawn as at the date of this Investment Booklet.

All references to the Administrator in this document are references to HUB24 Custodial Services Limited (ABN 94 073 633 664, AFSL 239112) (HUB24, Administrator). If you'd like to request a free printed copy of this document or have any questions or would like any more information about WealthSolutions, please contact your financial adviser or the Administrator.

InvestorHUB

InvestorHUB, your online access to your super and pension account, is available via the product website above.

Important information

Your investment through WealthSolutions is not guaranteed. The value of your investment can rise and fall depending on the investment returns achieved by the investment option(s) you select. In participating in WealthSolutions, you and your adviser are solely responsible for selecting the investment options in which you invest. The Trustee and the Administrator are not responsible for the choice of investment options you make and are not liable for any loss or damage you may incur as a result of you deciding to invest in, or withdraw from, a particular investment option.

Note: investment returns can be volatile and past performance is not a reliable indicator of future performance.

About this Investment Booklet

This Investment Booklet contains information on the investment options available through WealthSolutions to assist you and your adviser in building an investment portfolio to meet your specific investment needs.

This Investment Booklet includes:

- general information about each available investment strategy that you and your adviser may wish to consider; and
- the list of the investment options from which you may choose.

For more information about investing through WealthSolutions and the associated risks, refer to the AIB available on the product website. The information in the AIB may be updated from time to time.

Understanding how different strategies work

As investing in super is generally a long-term commitment, you should take a long-term view of which investments are right for you.

All investments come with some level of risk, although the degree of risk may vary depending on the asset class or nature of an investment. Generally, low levels of uncertainty (low risk) are associated with low potential returns, and high levels of uncertainty (high risk) are associated with high potential returns.

Before choosing your investments, it is important you understand your personal investment strategy including your investment objective, the timeframe you wish to invest and the level of risk with which you are comfortable. The different types of investment options can generally be grouped into the following investment strategies:

- Single-sector investment strategies: investments in a single asset class (for example, a managed fund which invests in
 Australian equities) and are generally designed without taking into account the particular risk profile of individual
 members. These investment strategies are offered in the form of managed portfolios, managed funds, exchange
 traded funds (ETF)s, exchange traded products (ETP)s, listed investment companies (LIC)s.
- Multi-sector investment strategies: Investments in multiple asset classes (for example, a 'conservative' managed portfolio)
 which are designed to meet the objectives associated with a particular risk profile. These investment strategies are offered
 in the form of managed portfolios, managed funds, ETFs and ETPs which target specific risk profiles.
- Direct investment strategies: generally designed by a member's adviser and implemented via direct investment in listed
 securities, which take into account the specific needs of members, including their particular risk profiles. They can be used
 on their own to build a complete portfolio tailored to a specific member, or they can be used to complement the above
 strategies. These include investments in shares in Australian and international companies.

To help you and your adviser tailor your investment strategy, a range of investment strategies are available to you, and you may utilise one or more investment strategies for your account.

Examples of the different investment strategies and their characteristics include1:

Type of investment strategy	Characteristics
Single-sector investment strategy	
Cash	Cash is usually the least volatile type of investment when it comes to risk. It generally provides high liquidity and defensive characteristics.
Fixed interest	When investing in fixed interest (debt securities), you are effectively lending money to businesses or governments. Returns typically consist of the interest paid and any changes in the value of the security. Debt securities are usually included in a portfolio for their defensive characteristics; however, different types of debt securities have different returns and volatility. The market value of a debt security may fall due to factors such as an increase in interest rates or concern about defaults on loans. Debt securities denominated in foreign currencies will be exposed to exchange rate changes.
Property and infrastructure	Investing in property provides exposure to listed property securities and/or direct property in Australia and around the world. This could include commercial, retail, or industrial property. Investing outside Australia may mean the investment is exposed to exchange rate movements. Investing in infrastructure provides exposure to global listed and/or direct infrastructure assets such as transport-related assets (toll roads, railways, ports, and airports) and utilities (electricity, water, and gas). Property and infrastructure securities may be volatile and are usually included in a portfolio for their income and growth characteristics.
Australian equity	Australian equities are investments in companies listed on Australian exchanges. Australian equities are usually included in a portfolio for their growth and/or income characteristics.
International equity	International equities are investments in companies listed on securities exchanges around the world. Investing globally provides diversification across multiple economies but can mean the investment is exposed to exchange rate fluctuations. International equities can be volatile and are usually included in a portfolio for their growth characteristics.
Alternative investments	Alternative investments provide access to investments such as hedge funds, private equity, gold, or commodities. When investing in alternatives, you are investing in assets that typically don't behave like traditional investments. They can also be less liquid than other investments, which could make them difficult to buy or sell.
Multi-sector investment Strategy	
Conservative	Conservative strategies, also known as capital stable strategies, are generally defined by the lower weighting they have to growth assets (Australian and international shares, property, and infrastructure). This is usually in the range of 0% to 40% to growth assets.
Moderately conservative	Moderately conservative strategies are generally defined by the weighting they have to growth assets (Australian and international shares, property, and infrastructure). This is usually in the range of 10% to 50% to growth assets.
Balanced	Balanced strategies are generally defined by the weighting they have to growth assets (Australian and international shares and property). This is usually in the range of 40% to 75% to growth assets.
Growth	Growth strategies are generally defined by the weighting they have to growth assets (Australian and international shares, property, and infrastructure). This is usually in the range of 60% to 90%.
High growth	High growth strategies are generally defined by the weighting they have to growth assets (Australian and international shares, property, and infrastructure). This is usually in the range of 75% to 100%.
Direct investment strategy	
Australian direct shares	Australian direct shares are investments in companies listed on Australian Exchanges. Australian equities can be volatile and are usually included in a portfolio for their growth characteristics. Australian equities may provide tax advantages through dividend imputation (franking) credits. Australian listed securities also include securities such as hybrids which are a way for listed companies to meet their capital requirements through debt-raising. Generally, interest rate securities are less volatile than equity securities and are included in portfolios for their income characteristics.
International direct shares	International direct shares are investments in companies listed on various regulated exchanges around the world. International equities can be volatile and are usually included in a portfolio for their growth characteristics.

¹The Trustee and the Administrator do not guarantee the performance of any investment option, the asset class(es) or investment products. This information is general information only and you should refer to the underlying disclosure documents for the actual details of each available investment option including investment objectives, investment strategy, asset allocation ranges, risk ratings, suggested minimum investment timeframes and costs.

You and your adviser should also consider the information about investment strategy classifications in the AIB, when formulating your personal investment strategy.

Investment holding limits

The Trustee has set limits on how much you can invest in certain investment options. These limits take into account liquidity, diversity and risk and are expressed as 'Single security limits' and, if applicable, 'Aggregate holding limits'. If the value you hold in a particular investment option or options (per account) exceeds the investment holding limit and/or aggregate holding limits, you will not be able to make further investments into that particular investment option or options until the value of your holdings in that option or options moves below the investment holding limit.

Investments in managed portfolios are generally excluded from your portfolio when determining whether your investments (per account) are within any applicable diversification limits. Your or your adviser will be advised if this general exclusion does not apply.

Holding limits are summarised in the table below. Note that the table below stipulates the maximum single security limit allowed per investment option and the maximum allowed aggregate holding limits. The Trustee has the discretion to set lower single security and aggregated holding limits than in the table below which may change from time to time.

Where applicable, holding limits are also set out in the 'Investment Options tables' section of this Investment Booklet.

Investment options	Aggregate holding limits	Single security limits
Managed funds (excluding alternative managed funds)	Up to 100% of your account	Up to 100% of your account
Australian securities listed in S&P / ASX All Ordinaries ¹ (excluding ETFs, ETPs and LICs)	Up to 100% of your account	Up to 20% of your account
Australian securities listed outside S&P / ASX All Ordinaries (excluding ETFs, ETPs and LICs)	Up to 40% of your account	Up to 10% of your account
Managed portfolios	Up to 100% of your account	Up to 100% of your account
International securities listed or represented in MSCI World Index and NYSE listed ETFs	Up to 100% of your account	Up to 20% of your account
International securities listed outside MSCI World Index	Up to 40% of your account	Up to 10% of your account
Listed investment companies	Up to 100% of your account	Up to 100% of your account
ETFs and ETPs (excluding any alternative ETFs and ETPs)	Up to 100% of your account	Up to 100% of your account
Alternatives (including alternative managed funds, ETFs and ETPs²)	Up to 40% of your account	Up to 25% of your account

Important note: Refer to the TMD of the Accessible financial products (if applicable) to understand the percentage of investable assets that the issuer determines best suits the product's target market. Relevant TMDs can be found on InvestorHUB.

¹ Includes Australian direct interest rate securities issued by a company listed on the S&P/ASX All Ordinaries Index. An Australian direct interest rate security (for example a hybrid security, and/or corporate bond) issued by a company listed on the S&P/ASX All Ordinaries Index will have the same diversification limit applied as if it were an ordinary security, if the security ranks ahead of the ordinary shareholders in the event of an insolvency.

² Alternative managed funds, ETFs and ETPs include commodity-based investments (for example, gold) and hedge fund strategies including long/short and absolute return type strategies.

Standard Risk Measure

You should also take into account the risk level rating for each investment option (if applicable). The risk level rating may be shown as a 'Standard Risk Measure'.

The Standard Risk Measure is based on industry guidance to allow members to compare investment options that are expected to deliver a similar number of negative annual returns over any 20-year period. The Standard Risk Measure is not a complete assessment of all forms of investment risk, for instance it does not detail what the size of a negative return could be or the potential for a positive return to be less than a member may require to meet their objectives. Further, it doesn't take into account the impact of ongoing annual fees and costs and tax on the likelihood of a negative return.

Members should still ensure they are comfortable with the risks and potential losses associated with their chosen investment option(s).

You should refer to the disclosure documents, which are available from your adviser or InvestorHUB, for the relevant Standard Risk Measure for your chosen investment options (if applicable).

Risk band	Risk label	Estimated number of negative annual returns over any 20 year period
1	Very low	Less than 0.5
2	Low	0.5 to less than 1
3	Low to medium	1 to less than 2
4	Medium	2 to less than 3
5	Medium to high	3 to less than 4
6	High	4 to less than 6
7	Very high	6 or greater

For more information on risks associated with investing through WealthSolutions, please see Section 5 Risks of super in the AIB. Section 7 of the AIB also shows indicative Standard Risk Measures for a rage of investment strategy classifications (based on certain categories or types of Accessible financial products). You can also find information on the different types of risks that may be relevant to the investment option(s) you hold in their product disclosure statements or other disclosure documents (as applicable). You should consider the product disclosure document or other disclosure document for any investment options before making any investment decision.

Important information for potential investors in international listed securities

- If you trade in a security that is listed on its home market and in that of another market (cross listed security) you will attract the fees and cost associated with the security's home market.
- Minimum trade amounts apply for trades in international listed securities.

International listed securities transaction related fees

Brokerage will be incurred on buying and selling international listed securities as outlined in the WealthSolutions AIB. In addition, trading on certain international exchanges may incur additional charges (for example local stamp duties, taxes, fees, or commissions) which we will pass on to you and which are generally deducted from your account at the time they arise.

You are responsible for all transaction related fees associated with trading. These amounts are an additional cost to the investor.

Known additional amounts incurred when trading certain securities on certain exchanges are included in the table below (the following additional amounts are accurate as at the date of this booklet and are subject to change from time to time without notice):

Stock Exchange	Location	Additional Fees (Buy)	Additional Fees (Sell)
New York Stock Exchange	USA	0.00%	0.00%
NASDAQ Global Select	USA	0.00%	0.00%
Toronto Stock Exchange	Canada	0.00%	0.00%
London Stock Exchange	United Kingdom	0.50%	0.00%
Euronext Brussels	Belgium	0.00%	0.00%
Euronext Paris	France	0.20%	0.00%
Euronext Amsterdam	Netherlands	0.00%	0.00%
SIX Swiss Exchange Europe	Switzerland	0.00%	0.00%
Hong Kong Stock Exchange	Hong Kong	0.11%	0.11%

Stock Exchange	Location	Additional Fees (Buy)	Additional Fees (Sell)
Singapore Exchange	Singapore	0.04%	0.04%
Tokyo Stock Exchange	Japan	0.00%	0.00%
XETRA	Germany	0.00%	0.00%
NASDAQ OMX Helsinki	Finland	0.00%	0.00%
Oslo Bors	Norway	0.00%	0.00%
Madrid Stock Exchange	Spain	0.00%	0.00%
Borsa Italiana	Italy	0.10%	0.00%
NASDAQ OMX Copenhagen	Denmark	0.00%	0.00%
New York Stock Exchange ARCA	USA	0.00%	0.00%
BATS Global Markets	USA	0.00%	0.00%

Exchange rates

Generally, transactions in international listed securities including buy, sell, corporate action and income transactions will be converted into Australian dollars using the foreign exchange rates advised by HUB24's sub-custodian. These rates include a foreign exchange margin charged by the sub-custodian. Some corporate actions and income transactions will have a relevant market exchange rate applied to the transaction at the applicable time; for example, an income transaction that may not involve an actual cash payment, but the transaction needs to be converted to Australian dollars for tax purposes.

International listed securities will be valued in Australian dollars based on foreign exchange rates obtained from the sub-custodian.

A foreign currency conversion fee may apply to trades in international listed securities. At the date of preparation of this booklet, the fee is nil, but this may change. Updated information about the foreign currency conversion fee may be shown in this Investment Booklet available from time to time or online at clearview.com.au/pds.

Changes to the investment options

Changes occur to the investment options from time to time. The table below outlines some issues that may occur, and how the Trustee manages these issues.

Closure to new monies from existing investors/ and new investors	The Trustee may close an investment option to new monies. For existing members invested in the closed option, this means your money currently invested in this option remains unchanged. However, any subsequent investment that would have been directed to this investment option will go to your cash account until alternative investment instructions are received from your			
	adviser.			
Termination	The Trustee, the Administrator and/or an investment manager may terminate the availability of an investment option to all new and existing members. This will require your investment in the terminated option to be sold down to cash. The proceeds of sale will remain in your cash account until alternative investment instructions are received from your adviser.			

Existing members will be notified of the closure or termination of an investment options, as required by law. This Investment Booklet will be updated to reflect the closure or termination of an investment option.

Investment option tables

The investment options in which you can invest in through WealthSolutions are listed below:

Managed Portfolios

The specific information on each available managed portfolio investment option includes the:

- Code
- Portfolio Name
- Category
- Scheme Details
- Holding Limit
- Management Cost
- Transactional & Operational Cost

Managed Funds

The specific information on each available managed fund investment option includes the:

- APIR Code
- Fund Name
- Single Security Limit
- Aggregate Holding Limit
- Management Cost
- Transactional & Operational Cost
- Buy Spread
- Sell Spread

Australian Listed Securities

The specific information on each available Australian listed security investment option includes the:

- Security Code
- Security Name
- Security Type
- Single Security Limit
- Aggregated Holding Limit

International Listed Securities

The specific information on each available international listed security investment option includes the:

- Security Code
- Security Name
- Exchange
- Security Type
- Single Security Limit
- Aggregate Holding Limit

Term Deposits

The specific information on each available term deposit investment option includes the:

- Code
- Term Deposit Name

Managed Portfolios

Each of the available managed portfolios listed in the table below are available through WealthSolutions via one or more non-unitised and registered managed investment schemes (Scheme), which are operated and offered by a responsible entity (RE).

For more details about the Scheme, RE and other service providers, refer to the product disclosure statement on InvestorHUB under Investments > Managed Portfolios or speak to your adviser.

Code	Portfolio Name	Scheme Name	Holding Limit	Management Cost ^{#†}	Transactional & Operational Cost
