ClearView delivers on Transformation Strategy, completing migration to single cloud-based core insurance platform

ClearView Wealth Limited (**ASX: CVW, 'ClearView'**), is pleased to announce the completion of the migration of its in-force portfolios to its new core insurance platform, which will enable the administering of all life insurance on a single, modern cloud-based platform, eliminating duplication and simplifying processes.

Delivery of this key transformation marks the start of a new phase for ClearView, shifting to technology-led growth. It lays the groundwork for a superior digital experience for advisers and customers, providing distinct opportunities for product and channel expansion, as we continue to further leverage technology and AI to reduce acquisition and maintenance costs. This milestone firmly positions ClearView as a pure-play technology-led, efficiency and service driven life insurer.
